Dear Friend:

The Child Development Group of Mississippi has received considerable national and local attention since its inception in the Spring of 1965. In recent months most of the local attention has focused on charges and counter-charges about the program. What has been lost in the shuffle is the profound contribution which CDGM has made to the state of Mississippi and to its people.

The program has added something new to the lives of the thousands of children, parents, employees, merchants, doctors, and bankers who have been involved in some aspect of CDGM's activities. In order for you to become more aware of our positive contributions and to help you put to rest your concern about accusations against CDGM, we are enclosing some materials which we hope you will find informative.

The problems of Mississippi are great and its needs are massive. CDGM has made significant strides in solving these problems and meeting these needs. We request your support for continuation of this effort.

Sincerely,

John Mudd, Director
