I am not a member of any Political Organization. I am a "Street sister". I have, however as the case of other Black People felt the direct oppression of this establishment.

I am taking this time to try to give you comfort by trying to help you understand the factual circumstances surrounding your husband's death. Please carefully weigh the following:

Your husband was in the Marines. The Marine Corps, is a voluntary thing, they are also the most highly trained professional killers of the armed forces. Your husband came home from Vietnam to join another voluntary thing, and the most ironic similarity is the fact the still he fought on the wrong side.

If you look into it you will see that a policeman's only purpose is to 1) Jail 2) Kill. He is here to carry out the laws of a racist, capitolistic establishment that is impossible for Black People to live with-in..... you see Mrs. Foster, your husband was a F A S C I S T. (Fascism: The open Terroristic Dictatorship of the Most Racist Reactionary, Imperialistic Element of the Establishment - the People definition). I know you feel that your husband was different because he was black, but so were some of the pigs who killed Fred Hampton and Mark Clark and attacked Eldrige Cleaver, Killing Bobby Hutton.

I saw in a picture how you clutched the amerikkan flag to your heart and cried. I felt so deeply sorry for you because you didn't even realize that what you were embracing was the reason your husband is dead. Your husband let that flag put him in a position that no Black Man should be able to relate to. A position however, he chose.... to be the official paid assign flunky of nixon, rockerfeller, lindsay and murphay who have already shown the people what they are OUTRIGHT PIGS.

We as a People cannot tolerate this madness and all flunkies of this establishment must be dealt with by the armed forces of the People. The police force is the foundation for the establishments oppression of Black People. Destroying that foundation is key to building a government Black People can live with-in. And it will happen and Black People will live within it easily because it will be A PEOPLE'S GOVERNMENT IT WILL BE for the PEOPLE, Because it will be set up by the PEOPLE.

I hope I have been effective in explaining to you that the death of your husband and his partner was not a tragedy. It was indeed.

A VICTORY FOR THE PEOPLE
