Information is Power

We must begin to ~~the~~ record
our own very important history
We must not let our joint
prints be erased from the sands
of time

There is Power in our words

We are here to day take you
on a journey with us, as we
look at and reevaluated is our
significant to ~~history~~ the making of
history 20th years ago. We take this
journey not as a rhetorical exercise
in haste, but through the
sharing of our experience you
will have gained something of
an inspiration to act, maybe, an
idea you can pass down to the
next generation -
