

Bismillahirrahmanirrahim

As Salam Aleikum,

Dearest Malika,

It's been over two months since i've heard from you + as i write this i don't really know when + if you'll receive it. My last two letters to you were still with that dude two weeks ago, three letters and since i was moved he hasn't been to see us. I guess the warriors are with you now your sister had't seen them the last time we spoke and Dena told me they were a hardship for her. Since i was moved the day after i found this out i could't contact some people like i had intended. I got the sweet shirt two days before i was kidnapped but your letter is still somewhere. Cisec, T.B., Milbert, and Victor are here with me. Victor gets out the 6ing August 12th he's been in for 40 something days already, he got jumped on to. Some stuff i had been trying to get a hold of for the last four months was finally gotten and the people could't find the time to come see me so i could tell them how to get it to me. It would be funny if it had not interfered with my plans for escape because in the 4 months thing had changed but it could have still been done. Now the stuff is useless, yet my spirit is strong the obstacles will not wear me down and i hope that you're in good health in body + mind. With the kids + the baby coming i know it is hard on you so give all of your attention to your survival. I have never left a place in peace only disruption. Forgive me for disrupting your life, it's always people like you who catch the fury of my attacks instead of those who deserve it. You once asked how could i say i'd love you always, well true love never dies for it comes from the spirit + the spirit is eternal. I had wanted to see Dena today but she didn't so if

she could make it and wanted Victor to call back, he did today but couldn't catch her so i doubt if i'll see her, i want some thermite, DeLeon was suppose to be getting some for the last four months but wine, reeper and partying take priority over these things. The pigs don't keep us here but people who get hung up in their own pleasure's, i am not bitter anymore about it, things don't have to be like this but that's the way it is. I love you + the warriors but can't help you with anything but my prayers and the little communication we had it appears to have been cut off by forces that seek to destroy us in a spiritual sense, so it seems they have won out in the sense of not being able to help or contact you plus putting a heavy burden upon you so not a moment of your time must be given to any thought of me but only the well being of your children and yourself. The only thing i ask is you be patient with them and don't beat Nub for he is a sensitive man-child who can be talked to, teach them the truth, teach Sule he wants to learn. Practice the meditation, clear the mind it will keep you in good health and free from worry. Take care of yourself and be good to yourself by not letting the world get the best of you. Twenty niggas was arrested in Tanzania, Pete O'Neil was one i don't know if D.C. was one of the twenty. I hear they might be turned over to the U.S. had they stayed and fought here in Babylon or laid some constructive ground work it wouldn't be so bad. One day niggas will wake up to the fact that life is not a game and everything is for real. With no place to go they'll have to fight here, Cracker's are gonna make it so rough where music, dope, alcohol, and sex won't ease their pain., what happen to the jews in Europe can happen here in Amerikkka to Black's

Never forget that. Things are getting worse everyday so don't get hung-up in the delusions. Check out the picture "Death Wish" then recall that in the last month groups of white people have killed Blacks in bars by ganging them + shooting them. White finks are getting it together, now they're just moving on blood's sticking them up next it'll be to put down a disturbance. Remember the Grand hats? On the News you see grown men attacking kids in the schools, in the paper I read of some white's attacking Black's in the Bronx over on Staten Island a blood's house was had rocks thrown at it and calls made threaten him + his family.

Know always that even though I am not with you, I pray that somehow you get what you need and that my spirit watch's over you + the others. I know it may not seem like much but when you are in need it will come so take care my love.

With spiritual love Eternal
Nitch

I am a poet who's heart sings a song of dreams
Who sees the injustices of the world.

For that reason I became a soldier

Let the poet and dreamer find a place always in your heart

When you see the evil of the world, pray for the soldier

The poet will stand with the people

If they do not stand with the poet then the soldier will stand alone

And he will fight with the poet's words as inspiration

Against all odds fearing not numbers or weapons
 The poet has taught us what freedom is
 The soldier will show us how to get it.

May Allah Protect You and be your guide
 Don't give up on Allah Malika, for your prayers will be answered
 if you keep faith and bear patiently

Peace

Well Dena didn't show, Vic's been calling for two days no one home.
 Just found out that stuff (magnesium tape) you finally got can still be used
 the problem is having someone pick it up. A letter I wrote Dena asked her to
 do that but she didn't meet with the lawyer. I need that stuff, I've been ex-
 ercising and even though I don't swim that good, I'll try it. When I say people
 don't care, it's true, if you can't keep on them they say the hell with you.
 There is really nothing difficult about this, no danger to anyone but the comrades
 and myself. We're gonna try anyway with or without it, with it we're in good
 shape without it, it's a struggle and it'll be hard. Look Baby, I didn't
 mean to get off into this but we've got 4 weeks to move in. I am not asking
 people for money or to risk their life just a few hours of their time, then they can
 return to what ever it is they were doing. Cisco + Gilbert are fine, they have
 deep feelings for you + send their love. They are the best of our kind and they (we)
 face two deaths, of the body and spirit. But we prefer the death of the body at the
 hands of our enemies rather than the death of the spirit at the hand of our

friends. Gilbert says if not for his family he + Circo wouldnt even make commissary T.B. + I dont, which is really no big thing. When the money for the kids didnt come in June, the revolutionaries didnt even come up with an excuse. Circo goes back to court August 9, if we can hook up getting the stuff we'll be ready, i promise you outside of looking after some comrades who are held in this pits and doing something for the people, you won't have to worry about money because i'll take care of you + the children. I won't stay locked up like an animal, i'm a man, i will be free or dead. Circo says he won't go see Bob when he comes if not to hook up some business i wouldn't either.

Yesterday heard a record by Johnny Mathis and he was running down about how people think you're weak because you kind or you're a fool. A question "Where did this evil start, when will it end."
