

Comrade Brother,

Pardon the long delay between this scribe and the last, it seems like I've been saying this in all my other scribes as of late. I seem to have developed a severe case of laziness and now I feel a need to pull myself free from this negative state. The last scribe you sent my way was undoubtedly of deep + profound content. I read the letter often as I do with Comrade Sha's Kites for they serve to inspire and uplift the spirit. I see that you have been off into the I Ching and other such profound writings, I too have been exploring in that area and am looking forward to the day when together we can sit and discuss worldly matters. However, as you say the environmental atmosphere must first be conducive to that type of activity; we must be of the business of creating such an environment.

Though the task before us may at times seem awesome in proportions we have proven over & over again that we are not ones to become awed by cheap displays of artificial power, and we have by no means nor will we ever become awe-stricken by a goddamn Paper tiger! The enemy boasts so often of having defeated the Peoples Army, If that were valid then why the heavy security? →

Why the heavy escorts, back up teams and organized Despair? Why the ominous fear for warriors whom they consider to be Vanquished, and a Movement they ~~are~~ profess to have been squashed? It shows their own lack of conviction in their empty boasting, it shows the deeply etched impact that the Cosmopolitan Guerilla has left in his + her wake! There's an old saying: "Let them hate, provided that they Fear". Well it works both ways, only in this situation we have the initiative in that we don't fear them whereas they fear us.

Go that I give a heavy Right on! for we hold the psychological edge, and that edge among other things shall see us emerge victorious from this  valley of suffering, sorrow + pain. I have great faith in the future of Our struggle for it is a Natural phenomenon and none can stand before the forces of Nature and endure. It is a guaranteed truth that we will win, However, Time is the Key factor, Time is the means of making actual what is potential. In our situation time is an asset, but it could also be a hindrance, The way the enemy is moving it is evident that he too is using time to his advantage. The time for the people to get their spit together is cleverly being curtailed, and the time that we are spending →

entombed in these dungeons create setbacks on all levels that ~~are~~ are showing to be damaging. The enemy has + is waging a Campaign designed specifically to destroy Black/Thirdworld Manhood. As a result Superfly + many a Eunuch roam the streets while the real Dragon lives in a cage. This is an intolerable situation but the reality of it is unescapable. The Women in the ~~the~~ colony are left to fend for themselves + the children, this condition many times breeds dependency and the oppressor is quick to take advantage of this. If the woman is strong she might could weather the hardships, but if she is weak she may very easily fall prey to the Malevolent benefactor. It hurts Me Comrade to helplessly witness these diabolic tactics being employed while for the moment ~~we~~ our hands are tied. There are very effective ways of dealing with financial difficulties out there in the colony; Steve Brody ain't dead nor is Humphry Bogart, and as we all know the Grim Reaper never died but is alive and well acting somewhat confused. If the progressive elements would only rid themselves of Fear + Doubt and move to master the Bogart they would be doing themselves a great service. The SLA is doing a righteous thing out there in terms of trying to meet the Peoples needs, I hope they are successful <sup>over</sup>

In their endeavors. The Guerilla must move forward + not backwards so we should look forward to bigger and better things to come.

Let me know how your trial (Rail Road) situation is coming along and y'all keep y'all spirits high cause despite the dark clouds the sun still shines, we got this situation Beat!

Give my regards (Revolutionary Embrace) to Cisco, Sha, Gabriel + the other warriors and don't forget - "a tragedy is a sail," so don't sell your boat to no man for we shall surely meet in the turbulent seas.

Fierce struggle so that we may ~~see~~  
one day see the dawn of Peace.

HASTA LA VICTORIA SIEMPRE,  
Changó Caribe

P.S. My deep appreciation for y'all Comrades  
Well Wishes in terms of the Matrimony,  
Next time we'll do it Right (Heh-Heh).
