

My Dearest Comrades,

~~A~~ ~~then~~ There is a repetition  
historical trend going on today  
within our movement. Comrades  
are being pulled every which  
away but the right way. There  
is so much disunion within our  
ranks that I often times wonder  
if in fact we learn anything  
from the fifties and early sixties  
especially as older comrades whose  
responsibility is to teach our younger  
brothers and sisters for lacking the  
experience of the fifties they are  
ignorant of the many mistakes  
we encountered during that great  
era of our development.

In making an analysis of what  
is happening within our ranks  
I feel and would surely say  
that we have lost most of those  
principles that are the forces  
that keep all great nations together  
we have lost trust in each other  
we seem to trust Strangers that  
we recently uty rather than trust  
each other. Some of us have big  
histories together but rather

Peace My Sister

I am writing you in hope of finding a key to resolving some very serious concerns about the practice and behavior of "so-called New Africans" here in N. Y.

The state of affairs here with New Africans is very sad. Just as it relate to the New African Women's Organization, there is very little hope of productive coming from Mateni or Rhonda. Both sisters are in serious violation of the New African Code, along with their Comrade Brother, Dr. Shaker. Results of the violations have caused mental breakdown among some comrades, pain and heart aches to others.

I shall be speaking to some of the New African Officials in an attempt to expose the corruption that goes on in the name of struggle and revolution. The things that I witness here I can no longer close my eyes to them and pretend that they don't exist. I feel that it is my duty as a New African to seek all means in an effort to preserve dignity, justice and lives among our people.

Then allow each other the freedom  
to make decisions or objectively  
understand those decisions that each  
of us make we tend to post  
judgment immediately
