

Greeting Comrade,

What's happening in your world? Since I've been here I've been giving much thought to our situation and the work that has to be done. A few months ago we rapped about some very productive things. However they have <sup>not</sup> been presented at least if they have we haven't communicated them.

In the past some very serious mistakes have been made on all of our parts. It seems that we have not learn from our mistake - ~~we have not~~ maybe some of us have but what are we doing to educate others? I like many others have had a very dogmatic outlook about certain things and certain people. I think it's time we all stop bullshitting and pull ourselves together. It just doesn't make any sense for everybody to be off doing their own little thing without any form of organization and I don't mean one or two niggers calling themselves an organization we need to stop <sup>concentrating</sup> ~~concentrating~~ on beating the pipe so much and put more effort into building programs in order gain support from the people - because a small "so-called" group will not beat this fascist.

when I return I want to sit down with  
you, Nicky, & maybe Butch and possibly a  
couple of reliable people that I know  
and work on setting up an organized  
working structure that can mobilize, recruit,  
& gain support from the masses. Something that  
we can truly call an army and armed pro-  
ganda team or whatever we chose to  
call ourselves.

It is all our duty to make this thing  
work we all had the right ideas and  
we just got to hurry up along the way. Let  
put it back together so that our <sup>fallen</sup> comrades  
will not have died in vain.

In struggle  
your comrade  
Jerry
