

~~MESSAGE~~ MESSAGE FROM THE BLACK LIBERATION ARMY!!

Greetings brothers and sisters, Comrades and friends.

We the members of the B.L.A. would like to send our gratitude and love to all of our people attending this rally in support of the Revolutionary underground movement all ~~across~~ the country.

In the midst of this revolutionary struggle here in this modern slave society amerikkka, A political-military army was formed bearing the name the Black Liberation army.

The B.L.A. was and is composed of small urban guerrilla units waging war against the oppressive forces in amerikkka, the united states government. We are brothers and sisters who have together to acomplish a common goal, The Freedom of all oppressed ThirdWorld People in babylon. We are brothers and sisters who have all at one time or another experienced and felt the exploitation and injustice of the oppressive forces in amerikkka. Therefore we are left no other alternitive but to take up arms and deal with these repressive conditions, since the process for equality through the courts have been bigoted.

Being that we are a political-military army, The B.L.A. is about Revolutionary action, We are about Revolutionary planning of operations and the method of carrying out the stratagy behind the operations. We are about setting Revolutionary examples to prove to the oppressed people in amerikkka that it is necessary to take up arms against these repressive forces of amerikkka, In order to gain our FREEDOM.

The B.L.A. was also organized to deal with the problems that confront the communties of poor oppressed people, such as , Slumlords with their bad & indecent housing, Dope pushers who sell wite death (heroin) to any and every body, including our children. Pimps who exploit A womans body for profit, and prostitutes who exploit their own body for some money, and all the rest of the evils that our people have to resort to because of enemy, (the u.s. gov't). We know because we have been brought up in these communities.

We realize that it is going to be a long and drawn out struggle for our freedom, and we hope you realize that it is necessary for all Revolutionary brothers and sisters to survive out here in babylon. The above ground apparatus of the Black Liberation Army can survive by getting jobs or any other so-called legal means, but the under ground aparatus of the B.L.A. does not have the same alternitaves and has to resort to exporpiations of such things as money, arms and ammunitives and so-on. Therefore many mistakes will be made in the process of exporpiating, since there is little or no help from the outside, meaning to the masses of the people.
