comrade Nih,

got your scribe. Its good to hear that Lil Malika, and the rest of the family is well. Always, I send them love, and wishes. So they put you off again? Jack, said, they keep doing the same thing to him. Well, they gave us 25 yrs.

The pig judge wrote to the parole board, requesting that we not be even considered for parole. cause he dont fore-see a change in our way of thinking. Little does the pig know that he praise's our dedication. We have also begun some proceedings in state court on the same charges. Ann Robberys Assault on swines. Gunnie, and Ashanti also faces kidnap.

WE will probably go back at the end of this month.

I'm under segregated keep lock. The state swine seized my shoes. claim they ARE conducting a internal investigation. From what I can gather, someone almost dug his way out through a wall. Better luck next time 😊.

To my knowledge they ARE only investigating me. on today, a prison official told me that I won't live to even reach 32 yrs of age, in response to mention of my life-span. There ARE a few of them here who try to provoke a confrontation with me. Obviously their object is to launch an attack on my person, and withdraw

safely. These are but a few of the things that interrupt my study, concentration, and forward struggle. Yes comrades, they do a mean thing to our people. The tragedy of it, is that, this has been going on for so long, with ~~only~~ only a small degree of real resistance. Well, and still, so many of our people minds have been poison with corruption.

Look at how black men disgrace our women, murder our children, and sell out their own people for profits. Most of them wants to be nice-beer slimis, super fly's, and Ray wilkin's

I just read a very moving essay ~~by~~ from "The Black Scholar," by J.K. Obatala on Liberia, called "The meaning of dual citizenship." It should put the neo-rulers there, to shame. Rauf is a old comrade and friend of mine, from the times in the B.P.P. Like yourself, I know only praise for his courage, and dedication. Tell Cisco that I don't know why the pigs won't let any of our scribes through. I' have been trying to get through to him also. My love to All.

All of us or NONE!
Hodari'
