Hello my SISTER,

I hope you and your husband are doing just fine, as for me I am doing o.k. for now. I hope you had a safe and enjoyable flight back home. I find a lot of happiness talking to you and I would very much hope we will find it interesting and informative keeping in touch with each other. You see when I meet someone who is roots as I am it's always very enjoyable learning about their way they especially go about living their roots life style. If they are from a different country and different countries always have different rules or laws. I can tell you that in some places our black brothers and sisters is finding it very hard to live up to our roots. I hope you have some information ready so you could send them in the reply to this letter. Here in Jamaica it's still warm and sunny as usual. Take care of yourself give a warm hello to your husband.

Brotherly Love.

hello my sister

I hope you and your husband are good. I just give you for me. I hope you had a good time.

P.S. I send one of my photos for you. I hope you will like it.

By chance you have a photo with you and your husband I would BE very glad to have it.

Learning about living their life style especially the different countries where you have different people or laws.

can tell you that in some places our street names are different. Here in Jamaica it's still hard to find it if you could send them in.

information ready to the letter. Here in Jamaica it's still hard to find it if you could send them in. I hope you have some information ready to the letter. Here in Jamaica it's still hard to find it if you could send them in.

Brother
