Comrade NOAH,

How's my Brother today - progressing I hope. By now you should have heard that the Crocodiles have changed our pit. They got me and Mike here in solitary - But like Bro. Nat Turner said - this ain't nothing. We're here on the week days and on the week end were at the other joints. Harold is still in Hartford. I think what they want to do is make sure all three of us is in a fucked up situation.

How's mom and 'em doing - growing and progressing I hope. I take it that no news is good news - you know. I saw a picture of Cole (is that how it's spelled) on one of the desks yesterday. These boys here stay in a ulcerated shock up state of mind. Yesterday Harold was going to get this state off of one of the desks - one boy chig Harold and went into a total Wayne demo - you know. So Harold told the boy he was getting the box. These boys suspect all kinds of spy shit out of us and - believe me I have to disappoint them. Don't be surprised if you hear about us being in a bad accident - these boys drive at a hundred miles an hour in the city or country - you know. The other day one swine told the other that if he lived thru this he's gonna have an ulcer from facking us back to forth. Well sonofabitch for them.

You should see how Harold is handling the defense: propering opposition to the beast. You know if they are going to →

Justice Labeling us as criminals they're gonna pay - and undergo a long process in doing it. Harold questioned a witness for 45 minutes - Educating him to the structure and dynamics of the world situation. The DA objects and the judge sustains - Harold turns around and me and Mike give him more questions - so Harold says OK judge - I have some different types of question - and he starts arguing and educating again - and again. You know I think the judge figured if he allowed one of us to defend them self he wouldn't have any trouble out of them niggers. Now the motherfucker is mad - he feels like he's been kicked - because now he knows there ain't no way to control them mad niggers. But like I said the court ain't nothing.

I / we have been giving considerable thought to gathering various opinions - statements declarations - etc. on various matters. Form this material ~~to~~ into a collective and compose a book about the B.A.. We have thought about this in the terms of everybody undertaking this challenge - I mean what you think - shoot it around the bull pen and give me some feed back. I think the decision to adopt this idea and set this process into motion can be greatly influenced and directed (if you choose) by you. It could help break de chains.

Freeze struggle
