Love

As Salamu Alaikum

Dear M,

I noticed your reaction when I mentioned these people had no autonomy - like Sha said they are cowards - had they did what was expected - things would be alot different. You recall my attitude in feb when you & the children came up - well I've never lost faith in the struggle nor people but I see some people don't grow - freedom is an abstraction - you see when I told these brothers don't free me but build a functional organization they stopped coming because I told them there was other thing they could do and keep the enemy off balance & put protection on pro. w.'s with little ~~work~~ <sup>RISK</sup>. I also tried to come together with J, & K but somehow the same people messed that up over membership on the C.C. I had told Lemmaka I was in agreement that some of them should be members of that body, so you see I've tried & will continue to do so. I need your help you're intelligent enough to realize the importance of this we need a functional organization. You don't write & your excess is you hate to & lack of discipline all these things contribute to our present condition and its sad, we've been in this a long time and if anything should have grown - Take care. Alan from the Committee will be in touch with you to help you get up here. Thank he'll give you his ear to use

Bismillah-in Rahman-in Raheem

As Salamun Alaikum,

Just a few lines to say hello & send you a form for Jamal, also a bus form - you should have received one I mailed a couple of weeks ago - if so that's good because you'll have two or one if you sent the other in, anyway I want to write Jamal, he was telling me how he was doing in school seems he's doing alright. Sule was doing his homework we spoke - he said he remembered me, I saw his mother's husband & Malika said hello & asked where I was, felt good rapping with them even for the few minutes I get.

My next call will be in a month & that should be on a Thursday Inshallah. I just filed some papers in court to see if the court took into consideration constitutional issues - I don't expect anything but I'll go into federal court soon as I get the transcripts, Bloom still ain't doing nothing - Meelom said it, how they are - Well I got to get this in the box, its 7 in the morning - Promise a week, take care - love to the children & you  
Wub

Nyisha should have a bus form also
