

SISTER MALIKA -

How are you doing, sister? You don't know me personally. I'm a friend of Valdez (Oscar). He informed me that you wanted/needed the support of the brothers. This is a quick note to inform you that you have at your disposal my services; whatever I can do from in here. I agree with you that those of us committed to revolutionary change must stick together. Our ranks are small. Our spirit is international.

I understand you are preparing for court. I know little about the case therefore have no right to speak. The other brothers intend to address this issue. I do want to say if your decisions take you to American's injustice systems be prepared physically & mentally. Don't expect justice. Expect frustration, anger, a deeper hate, confusion, weariness. Don't expect justice. Again I'm offering whatever help is necessary.

The brother showed me pictures of your children. Wonderful, sister you're fortunate.

This is mainly a note, an introductory note.
It's seldom that I run across dedicated comrades &
we need all the encouragement that's available.

Yours in Struggle
Ferson Sabala
