

WE HAVE NO HANGUPS ABOUT REVOLUTIONARY VIOLENCE

Recently, in what appears to be a very carefully developed plan, numerous members of the Black P. Stone Nation were first vilified by the news media and by certain pig-appointed bootlicking preachers, namely Curtis Burrell and Company. When we look at the attack against the Stones, we must be very analytic, and we must keep in mind the historic actions which have taken place within the publicity of the Stones.

According to our information, Rev. Burrell, who is head of a group called KOCO, or Kenwood Oakland Community Organization, had been instructed several years ago (after the death of Dr. King) by the government pigs who fund KOCO to hire members of the Black Stone Rangers, presumably because they, along with some other groups on the Southside, had kept the people in the community "cool" (they didn't spontaneously retaliate) when Dr. Martin Luther King was assassinated. After this, all kinds of opportunists looking to obtain pig-money for developing more structures by which the Black youth could be organized and controlled. Oscar Brown Jr. came along with his Opportunity Knock thing, and a lot of the young and soft people in the community (not necessarily Stones) were involved in musical expressions and appeared on T.V. etc., and who knows where they are now. However, despite both of these programs, the majority of the youth in the community didn't benefit from them because the programs were only designed to separate the weak from the strong, and buy off the leadership. Other groups or movements such as the United Front, influenced by Jessie Jackson and C.T. Vivian, were in coalitions with the now Black P. Stone Nation. They moved against the construction building unions, which are racist unions. From our information, the Stones didn't really benefit from the coalition, as evident by the fact that right now when they need support, the coalitioners sit quiet and afraid to speak out against the injustices perpetrated against the Woodlawn youths. Some people remark that they are glad the Stones are being attacked by the pigs; however, this is a naive way of thinking. The pigs are not attacking the Stones in reality, they are using the Stones as a stepping stone into the Black community so that they can deal with all the Black youths.

The real tale was shown during the Cabrini Greene situation, whereas people in the Black community resorted to revolutionary violence and killed two spy pigs. Prior to this a lot of news appeared blaming the gangs for every internal murder, robbery, and rape within the confines of the Black community. The pigs seized the opportunity at Cabrini Greene projects, to arrest Black gang leaders, because the pigs' vilification in the news media, was designed to isolate them from the community, and this is just what happened. The pigs

was a leader of the Cobra Stones. When this happened, Rev. Burrell intensified his efforts to fight the Stones and prove to the government that he in no way associated with them. All this was done for more funds from the government to Burrell's group. Jessie Jackson and Burrell started a so-called male group, called Black Men Moving, Rev. Burrell was of course leader and spokesman. He vowed that he would get the Stones, and declared a war against them. The pig news media went over-board to support Burrell because as Nixon or Hoover would probably say, Burrell is their kind of nigger.

When pig Alfano was offed over in the Woodlawn District it was easy for the pigs to charge the Stones, because they had the people turned against the Stones, and so they could really have a field day on the Black youth under the pretext of them being Stones. As one Gang Intelligence Pig "oinked" "All of them (youth) must be Stones, because they (gangs) kill anyone who doesn't join or go along." So with this pretext the pigs attacked all the Black people on the street without respect for age or sex. The pigs took advantage of the situation to arrest some of the Stones' top leadership, because they saw that many of these brothers were becoming violent in a revolutionary manner. We, in the Black Panther Party say Right On, Right On, to revolutionary violence because it is directed at the oppressor, and it is about annihilating the oppressor. We know that the pigs are oppressors who carry guns and use force to protect the other oppressors who exploit us for profit.

To the Black P. Stone Nation we say this; the pigs of the power structure along with all their nigger lackeys, have shown you very clearly that the oppressor of all mankind, who is manifested in the profit seeking avaricious businessman, the apologetic profit worshipping demagogic politician, and the low-lived murdering fascist pig cop who protects all the other oppressors in our community. These pigs who are a total threat to mankind and survival on this planet, will not hesitate to kill and eliminate any person. They intend to destroy the majority of our people. It is very clear that we are an oppressed people and that the only thing we can do to free ourselves, is to take our guns and begin to shoot the oppressor. We endorse and support this type of action in the spirit of liberation, because in order for us to win, we must fight. If you dare to struggle, you dare to win. If you don't dare to struggle then you don't deserve to win. Take up your guns and let us as a nation of oppressed people gain our freedom and liberation.
