Effective Instructional Capacity for the regular instructional program excluding annexes.

Based on limited regular instructional program enrollment of September 15, 1977.

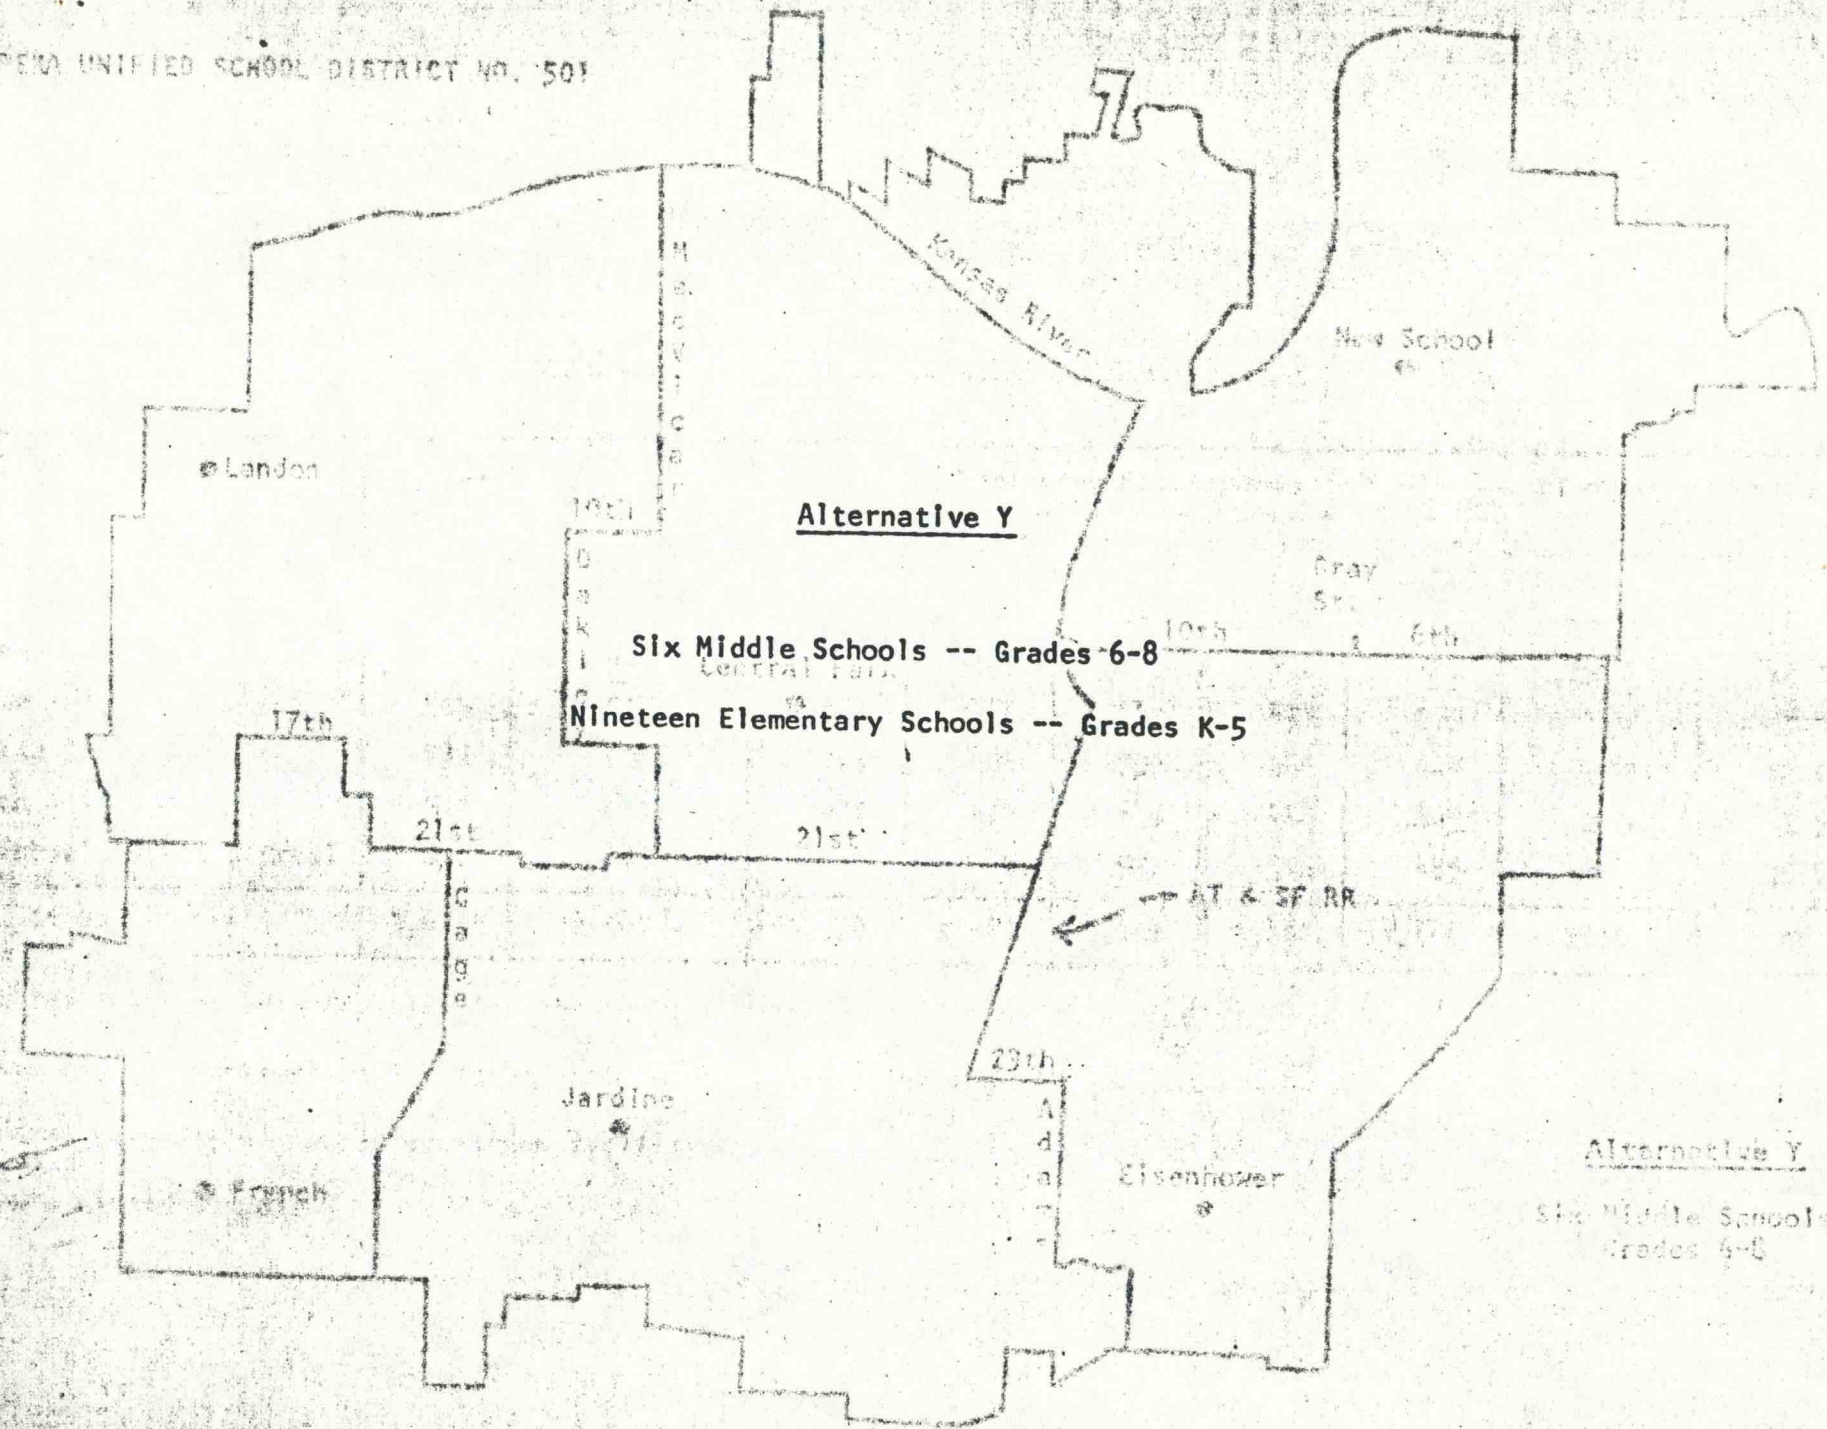

Does not include two special education rooms (a zone office and a PSA I) or four special purpose rooms.

Estimated capacity of new or converted facility.

Does not include eight classroom spaces presently being used for special education. The use of six of these classrooms in the regular instructional program would increase the EIC to 471.

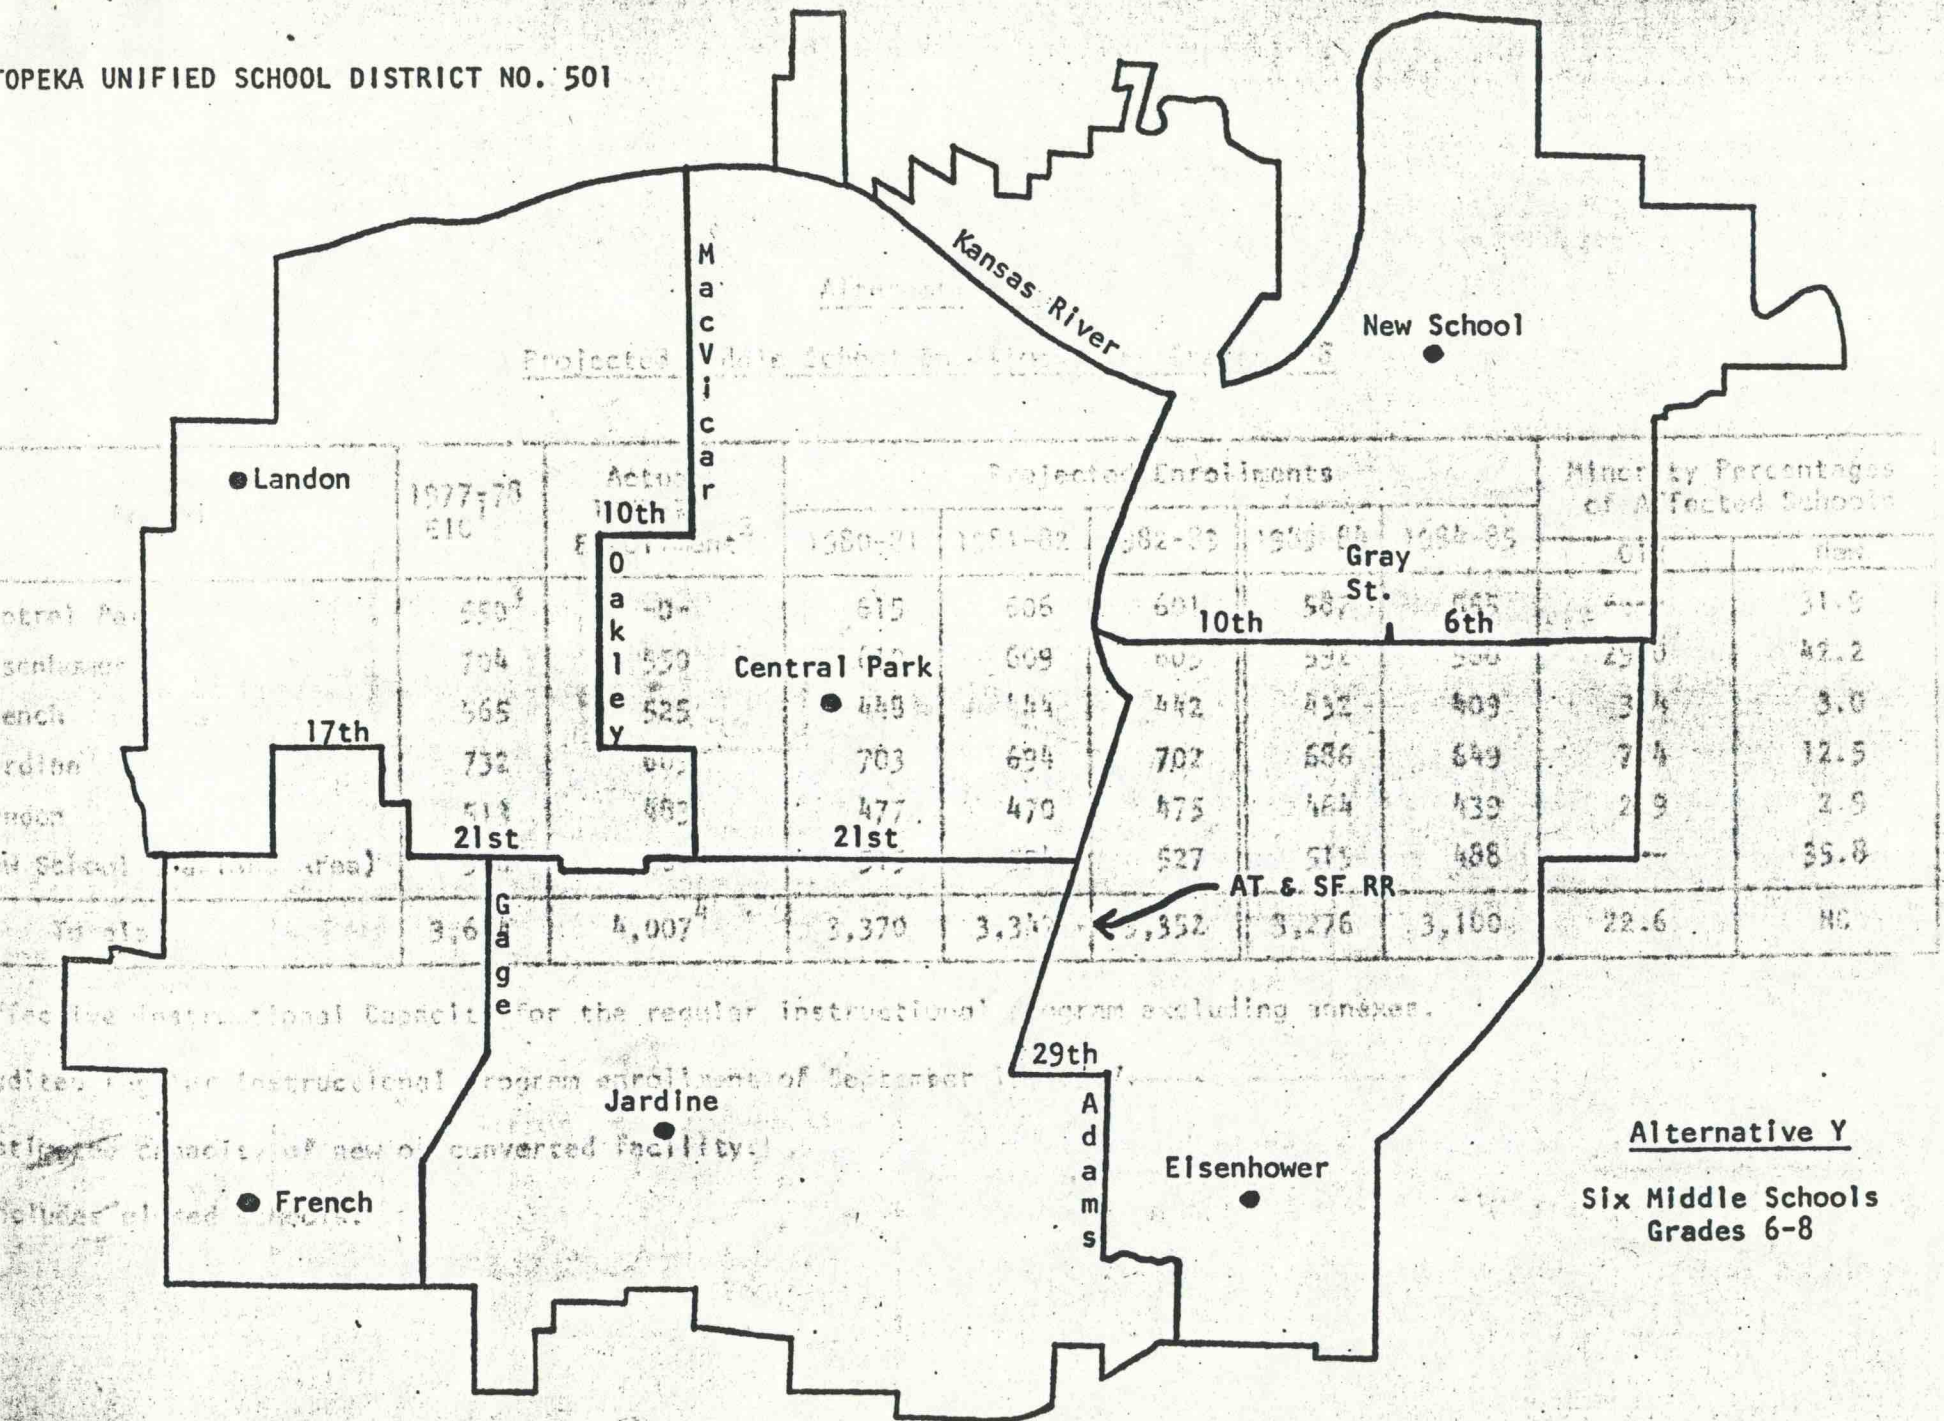

Includes closed schools.
