Bismillah - Allah Al Tawwab Al Raheem

سَلَامٌ عَلَيْكَ يَا نُوْحُ

4 day of 12 month 74

Tear of Dragon

Dalam Mujaid Nuh

Received your scribe

I want to begin this by asking you to forgive me for sounding so provoking in my scribe before last. There is really no excuse for it, but I didn't intend for it to come out that way. I guess it may have been a combination of frustration with my self and inability to make words come out the way I feel inside. especially when trying to say and do every thing at once. I pray Allah grants me patience and much self-restraint.

Between you and I I haven't really pushed for that move yet because I first wanted to get married while over here. Please keep it to yourself and if you can suggest any Imam that will deal with it while I'm here please recommend. because I would rather it be a muslim marriage. — AS SOON AS THE PAPERS COME BACK.

What I was thinking about this sudden burst enthusiasm is that this is the time to use a great deal wisdom (caution and patience) or the fire will burn out very quickly. In the same manner when one strokes new life into a smoldering fire he must put a damper on it or the fire, while generating much heat, will go in every direction, serving no specific purpose.

Everybody wants to do their part and make the necessary contribution but if not channeled and held in check it won't generate the necessary heat where needed.

Nor should the believers all go forth together:

if a contingent from every expedition remained behind, they could devote themselves to studies in religion and admonish the people when they return to them, that thus they may learn to guard themselves against evil.

AL QUR AN 9:122

I was into the Qur'an today and ran across this principle of not committing all our energy at once and just wanted to share it with you. or be corrected if not on right track.

What I had suggested to Sundiata is that we handle the strategic goal of consolidation of communications and leadership phase by phase. This way we will avoid some of us outstripping the others. And at the same time achieve the max amount of cross representation possible. Starting from the first step of a general call along with the principles why. to instill a conscious understanding in the event of various relative successes or setbacks in the course of implementation. there won't be too much straying from principle or why. (Goal). Meanwhile we write as many personal letters as possible to cross reference ideas, being as quiet as possible, so that when we moved into the second step which would be a semi open news letter type with

A call for suggestions on a structure (nation wide) we would have a strong foundation to stand on, to be able to withstand reactionary flack, from the negative elements within and without who have thus far profited from the confused and stagnant situation. In this manner we will some how be a step ahead of our selves or common knowledge. "And when Allah says 'Be', and it is" which would bring us to a third step. when every body submits their suggestions on structure of communications and leadership (nation wide) to a central collection point which would then consolidate and send to all p.o.w.'s to vote. And be ratified at one of the camps with a sizable body. say, where you are which would be the fourth step. of submission of a general structural plan to all areas to immediately implement. And once into motion we then can brake it to the general public in an open newsletter. to all revolutionary groups. for then it will already be in motion. "And Allah says Be, and it is." And we will have something to offer for a united front nation wide, since we will already be united ourselves nation wide.

Any way the four basic steps or phases will ensure that we won't be out stripping the more isolated elements in Siberia and at the same time energy can be focused and kept straight on point. — of course we realize that every body can't or won't participate but if we want to stay close enough on the ground when implementing our higher ideals I figure we need at least

A 50 to 60% backing and if possible 75% mainly in the key areas across the country.

The only major block I see is getting the apparatus or machinery necessary to organize such a move. whose position will be temporary until we can proliferate the burden by decentralizing communications thus becoming independent.

I was thinking maybe if we can somehow get the National Committee for D of PP. in New Harlem and comm. to consolidate their energy around this specific goal. which if successful will relieve them of their burden of communications and also allow the P.O.W's the ability to determine their own policies and direction. But it will also help them centralize their structure via of actual collective work and responsibility. But their thing is so undisciplined and arbitrary it still remains a thought.

This is what I was in the process of working on. "trying to get the machinery together." I roughly estimated that for about a two or three month period it will be hard work but we will have completed a systematic nationwide communication system. as well as consolidation of our leadership into a structure with chain of command and areas of responsibility.

The first thing I did was to ask for an up to date list of all P.O.W's and their camps. then roughly estimated 7 times

that number in stamps, 200 times that number in paper, 4 times that number in envelopes. The MAN power divided over a period of three months with the greatest effort the time when the suggestions on structures will come and must be consolidated and re-submitted for vote. Their burden of work ending once it has been ratified. since implementation will be decentralized. but consolidated — so far so reply. — Now that I re-read your letter I think maybe I may be a little too direct and too the point. — I think I may have to practice rounding my language off, especially in such a delicate stage.

Anyway in spite of all I have drawn the conclusion that what they are mainly interested in is rah rah articles and open letters. with a lot of criticism, self criticism and dialectical theories on which way the revolution is and should be headed. Rather than hearing the actual work necessary to turn it into a successful reality. for when you start talking about work, (that will hit home) rather than in a general sense, they treat you like the plague. when you run the principles they say you are too general and vague then when you run the work they say we ain't ready, who is going to mind the store or who is going to watch the house. You're damned if you do and damned if you don't. The Qur'an runs the drink like this.

Those who believe say, "why is not a sura sent down for us?" But when a sura of basic or categorical meaning is

revealed, And fighting is mentioned therein, thou wilt see those in whose hearts is a disease looking at thee with a look of one in swoon at the approach of death.

SURA 47:20.

AS SOON AS I read that I understood why the great amount of requests for Articles And what not. then when work of **basic or categorical meaning is revealed**, you can't find no one. This may lack of Faith causes frustration and prov negative letters. 😊

Any way I figure that as soon as we hook up our structure and chain of command of leadership we will (ie P.O.W?) have to assume total authority over all areas of work that surrounds our specific issues, including all the national comm. that are saying they are about our defence. I figure we will there after have to give all orders on how our situation will be directed and it will have to run with military precision and discipline.

I know that such a move will be stepping on a lot of toes such as the reformist and opportunist elements we have in our midst. who profit from the situation, thats why I didnt want the move on consolidation to wide open until we had a strong enough backing to with stand the blows. At such a critical stage of re-organization and giving birth to a new qualitative change. Thus the necessities for having a basic

Agreement or commitment from those who feel the same thing, so that when we assert our will we can assert it with Authority, for then it will be the will of Allah and not individual whim. Thus it will be principle rather than personal. But I feel that a move to assume the Authority since they have already demonstrated that they are unable and unwilling to take on the responsibility is a necessary move of high priority. — The Quran goes further to state in the same Sura same section

then, is it to be expected of you, if ye were put in Authority, that ye will do mischief in the land and break your ties of kith and kin.

they had the authority and did just that, (Blew.) Sura 47:22

I have almost completed my suggestions for a communication and leadership structure nationwide with exceptions of a code of conduct to abide by while implementation. But I decided to hold up submitting it until the semi news letter was printed and submitted first calling for suggestions. Jundiata should be handling that if the N.C.D.P.P. will print it on time. I mainly don't want to until enough people are aware of what is taking place as well as have a conscious understanding why. Especially since we know that nothing is successfully done without the Authority of Allah. It would be better to wait till we were consciously and conscientiously on the same level.

Well Brother and Companion I think I will draw this letter to a close. mainly to give my finger callus a rest. Again Please forgive my seemingly provocative letter, for I really didnt intend for the words to flow out that way. Please in the future if you see or hear of me doing wrong dont hesitate to correct me. for I truly realize now that my very life depends on me being right and exact. with everything I do. My only life line is Striving for righteousness and being one with Allah. Because I have burned all my bridges and kick the ladder out from under me. theres no turning back now. And the only way to fall is with a CRASH or ^{to} Stop means to drown. Dont round. for we dont really know what Allah has in store in our struggle for victory or paradise, Perhaps we may have to fight back to back, I just pray I prove worthy enough to stand with the righteous. — Beker I Actually close Please permit me to recite this Ayat that I feel is very much intoned with our struggle to consolidate. (which is stage by stage, degree by degree, phase by phase.

12. MAN we did create from a Quintessence of clay;

13. then we placed him as a drop of sperm in a place of rest firmly fixed

14. then we made the sperm into a clot of congealed blood; then of that clot we made a (fetus) lump; then we made that lump bones and clothed the bones with flesh, then we developed out of it another creature. So blessed be Allah the best to create! Sura 23: 12-14

every thing being for real. I think those principles can be applied to our struggle to develop that body. to rise above the oncoming confusion as well as lead the masses to safety. thus Nuh and the flood. / confusion and the Ark / Body. / covenant - 12 (ARMY). thus every thing is done in stages. Accordingly, it took six stages to create man. 6 days for the heavens and earth. And since every-thing is real and the Qur'an is a book of Principles spoken in parables, fundamental and Allegorically for men of understanding, I think there is a heavy drink for us who are also trying to create a body. by way of universal principle.

The idea, from nothing onto a structure. that will be clothed with flesh / cells & pre-storers / into a body. then the breath of life / consciousness. — thus **اِنَّا فَتَنَّا لَكَ فَتْنًا مّبِينًا**

اننآ فآفآ نآ لكآ فآفآ نآ مّبآآ نآ

verily we have granted thee a manifest victory

Ps. I have Viet Cong and there are some beautiful drink to be gotten from them principle and structural wise. — on time in time
