As Salaam Alaikum Malika,

I pray to Allah all is well with you and the family. I just received word that they denied me the family reunion program. Jalil was also denied and another brother considered BIA. That seems to be how this camp operates in regards to BIA. I want you none the less to deal with the other business we spoke about. I'm appealing this decision to Allony in the meantime. If I get a favorable response, then we can move forward on the thing.

Also I left one blank space for the Eid Arda feast which will be Sept. 1st 1985. Babe has the form and I told to hold on to it until she visits me the weekend.

Also you should have the probation Dept. send a letter to this facility Eugene LeSelve Superintendent, informing him you are no longer on probation, and you expect to visit me in the future. This way you have all bets covered in regards to visits. Sha Sha is here, Deborah came to see him today. I'll try to call you before the weekend if I can get to the phone around 7:00 o'clock.

Ms. Morsch said she may come up this weekend with Grandma? I should have her birthday present by then but don't tell her because I want it put away until her birthday. Also, I spoke with Ron Culy, and they think the pups are having problems with their case. So we should file appeal very soon on first conviction, I look for a reversal on that.
