

29<sup>th</sup> day  
Year of Sorting Out  
Consolidation

P-1

Dear Comrade,

Been a long day yet much has been accomplish-  
ed. Brother C has been instructed to forward structure and  
short range strategy to you. The courtroom is a drag but has  
it's positive side as it enables me to conduct business.

I've given a great deal of thought to things you  
mention in your letter long before it arrived, the structure is de-  
sign to put everyone in a position they can best operate from. The  
book is to be the ideology and political philosophy of the B.L.A. so  
the people will know what we're about and so will each and  
every Comrade. (and other Comrades) have come to recognize that  
people are committed to the struggle on different levels yet every-  
one must give their all to which every level they chose to function  
from. If this is done then we will have a highly organized body  
where each level complements the other. We recognize the need  
for schools, Comrades with the ability to teach must educate our  
youth, Comrades who can must open their homes as children collectives,  
a strong supportive apparatus must be built. In our talk last night  
Osaka asked should the guerrilla survive only off of expropriations,  
In the past teams have had this only as a means to survive, the  
structure run's down, 1) what will be done with money ripped off-how  
it will be used, this is why the different layers are important but  
basically the under-ground guerrilla will live off of ripp-offs and  
monies furnished from the organization. This is just general stuff.  
That which was said about us being cop killers and bank robbers  
was discussed, many may not agree or like the idea of  
killing is personally don't, neither do most of the Comrades.  
Black people are very forgiving towards their enemies, they endure  
much abuse because there's much love in their hearts.  
All of us don't express it the same way. I once told you  
about taking a life and I recall you saying "you didn't want to  
do about that." Which the structure also provides for, my pra-

spective is broader and have taken into account that many may not want to no but still be completely dedicated. Someone must kill, and it must be done to the enemy, informers, and traitors and criminals but only in the interest of the people out of love for the people. That which the people gain must be defended, that which is taken must be taken back. The revolutionary is a split personality on the one hand he/she must be kind, fair, and principle on the other he/she must be cold and vicious, immoral. The face of the angel may look like a devil to those who don't understand. You may wonder why I am writing this since we all as armed struggle must come. Well in every army there are certain units that do things that others may not approve of but history has shown there must be terror, that's the way it is. The purpose of organization either social or organizational is to control the activities and guide the activities of it's members so the whole can benefit. Each of us must do what we have to do so that the broad masses can live a life secure in person, mind & spirit. The revolutionary sacrifices a part of their humanity out of humanity for humanity. Many of our people have been murdered and tortured their blood cries out for vengeance, war is hell and strange as it seems it can only be stopped by war. So in your P.E. classes stress the need for revolutionary violence and the need for kindness and love, speak of destroying but always of building. This is why it is the year of sorting out and consolidation. We must sort out the ineffective and unreliable the cold killers, from the warm hearted, the builders from the destroyers, then consolidate them with love for our people.

People have said I am cold, hard, and vicious (not always the enemy) so my need to explain myself is important to me in the since someone I trust would do what I am really about. Today you see the world through broader eyes, life is unfolding, yet the path takes many turns so that one may not always see the same thing, clouds may darken the sky or block one's

view, the only thing to guide them will be what they see in their heart and that which they saw from the first was the true picture which ~~is~~ time and distance may distort. I speak not only of myself but of other comrades for there are Black men and women and there are those who appear as the Blackman and women who are really something else yet like everyone else. Being one who appears as a Blackman and being a Blackman creates a problem at times but Allah solves all problems. The crackers gave our people a religion to make them slaves and told them to pray had the cracker believed he would have known 1) There is a God 2) He answers all prayers. When I see you I will speak to you of knowledge & wisdom and a few other things of the spirit, then it is to be about my Father's business. My love to all.

Have Nixky learn the code from C. it's the one I was going to run on you, I taught it to the bro. so now you can get it and pass it on. Oh yeah Mike & Barbara had a boy, no more info on B. J. Dena also had a rough copy of the structure, got some info on who vatted on Red, also some on some other vatt, will also make connection on T.E. at end of week. Learning some skills in dealing with explosives and how to put them together so my stay here has been very positive in terms of the peoples interest which is really what we're about. To be truthful I no now that this has all been for the best, all around.

A pig was offed in Jeff City on Bloods ties, he says it's pretty tense.
