PHILOSOPHY

Art is defined as the conscious production or arrangement of sounds, colors, forms, movements, or other elements in a manner that affects the sense of beauty. In my struggle for self identity and purposes as an artist, I have come to the understanding that "art" is more that just an object of aesthetical beautiful. An artist must be true to his works and to himself. He must be able to imagine things and able to transfer his thoughts and feelings to others in a way of art. Designing is the invention and disposition of the forms, parts, or details of something according to a plan. Designing of things has become more involve in everyday life. Houses, vehicles, supplies, and etc; are designed in such a way that they are useful and economical. I have always wanting to be a designer, and I feel that Texas Southern University can provide me the knowledge of art in design. Having learned the art of designing I feel that the process in design is a basic experience on how to indicate lettering for layouts

to feasibly give students an adequate experience in the use of tools and equipment in the field of Graphic Arts. The learning of art also includes the making of ceramics, sculpture, painting , printmaking and drawing.

Historically ceramic is designted as being " The Mother's Art ", which precedes architecture, painting, and sculpture. Ceramic being the fine as a piece of fire clay, is the art and technique of making objects such as pottery and sculpture out of clay. Beginning ceramic is learn technique by hand, slab technique and roll the clay. Appling 3 forms shape to cylinder. The next was use manual kick style pottery. Ceramic school the pottery wheel was design by the ceramic school, CRANBROOK Artist academy Blom Field Hills, Michigan.

Traditionaly there are 4 catagories sculpture namely bar relief, low relief, high relief, and sculpture in the round. And example sculpture in the round is expressive of my composition title " Owl ". Which is an example of (△8) stoneware ceramic sculpture.

To pratice the art of painting pictures, one must closely follows the instructor's guiding. Using his or her own imagination, one must know how to transfer thought into figures by using liquid mixture.

Printmaking is the process, art, or business of producing printed material by means of inked type and a printing press or by similar means.

Art is an integral part of education and life. Art education has become recognize as a field which contributes richly to the total learning experience of students. Art teachers are to guide students to be creative, and to offer students many chooses and to permit a great freedom of experiences.

PAINTING

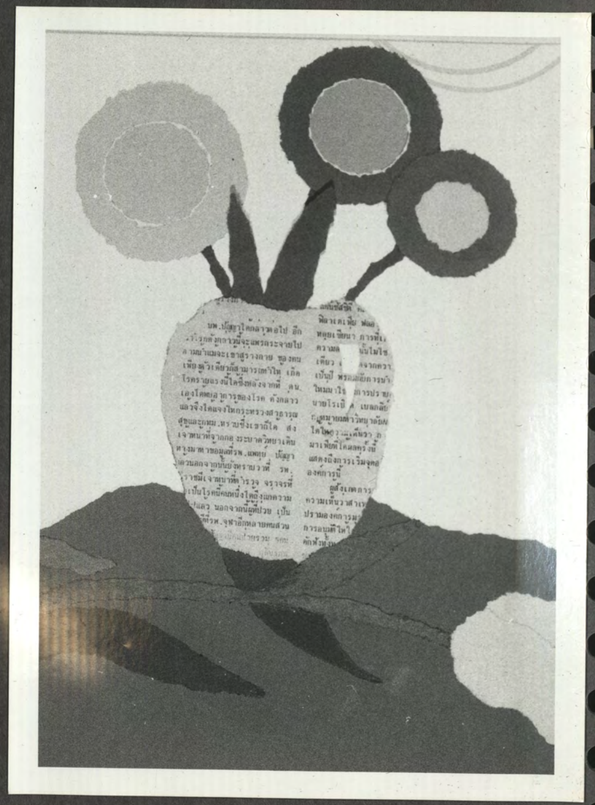

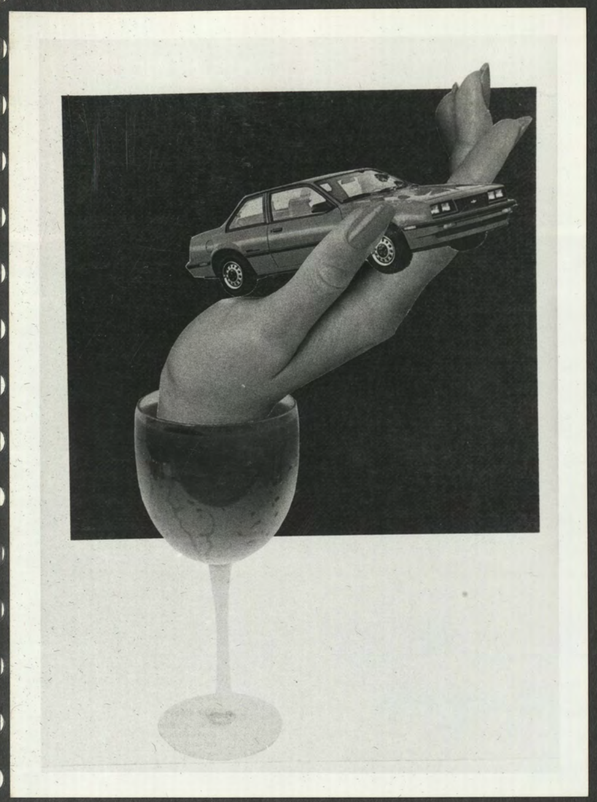

" The Lover " is a Thai style mural-painting that expresses the love of two human beings. The picture shows that they are surrounded by the beauty of nature and are closely watched and protected by the angles.

The man and the woman are dressed up in Thai-style like the old days. These hand-made dresses are neatly weaved and knitted in a Thai pattern. The material is made of Thai silk which shows how smooth and delicate the lines are. This is one of the symbols of Thai Fine Art.
